CMAA NEWS

President's Report

Kody Roddick

Greetings Everyone. I would like to take this opportunity to introduce myself to the membership. In October 2018, I was elected as President of the Canadian Maine-Anjou Association. I have sat as a Director of the CMAA board since 2013. I grew up on a farm in southwestern Ontario where we raised cattle and grew oats, hay, wheat, corn and soybeans. I still farm in the area I grew up in; from a very young age I knew that I had an interest in the cattle business. I got started in the Maine breed showing a Maine heifer for 4-H. That's where the love for this breed began and continues to be. Shortly after that I got my own letters and started my own modest herd. I have since grown to calving 70 fullblood, purebred and maintainer cows, as my family continues to grow so does our herd. I believe that even in times where the markets may be against us, this breed has something special to offer. Maine-Anjou has the ability to enhance any other breed from maternal ability and carcass traits to docile temperament, soundness and longevity. The commercial cattlemen would benefit from looking into Maine-Anjou genetics to improve their bottom lines. I truly believe this and have seen the evidence in my own program in the power of these Maine cattle. I hope we can get more of these great cattle in the hands of the everyday cattleman and let them see for themselves the difference they can make.

I would like to recognize the Fullblood breeders out there, who continue to strive to make this breed's foundation even stronger. The importance of this cannot go unnoticed. Purebred breeders have a lot of the same vision with a slight twist that also carries a great significance.

The maintainers are equally as important by proving the advantages of introducing the Maine genetics to any other cattle breed. I feel every facet of our breed plays a major role and I can appreciate the efforts that every breeder is making. I know everyone doesn't agree or think the same but I think that is a great thing. If everyone had the same outlook, where would we be?

There are so many exciting things happening with this breed right now; we've initiated a futurity show where many of our membership have qualified calves to show in a futurity class at our World Congress 2020 Show at Agribition. Although there is a lot of planning still to do, I truly hope every member and interested party attends the World Congress 2020 Show, it will be something to be remembered by all. The Junior program in its first year has been a huge success, and I would like to encourage any Junior to take part in this exciting program, the details can be found on the CMAA Facebook page.

I would like to take a moment and thank all my fellow directors for your confidence in electing me as your President, also for all of your hard work and dedication to the Maine breed. As well I would like to thank the members for their support and encouragement.

I wish you all a successful calving season and a prosperous 2019. I welcome any member to contact any of us on the board with any questions or concerns. I look forward to seeing you this summer in Saskatchewan.

CMAA NEWS

Office Manager's Report

Heidi Voegeli-Bleiker

I hope this finds everyone doing well and I would like to wish everyone a Happy New Year. Calving season is well under way and everyone will be busy with that when you receive this magazine. Best of luck for this very demanding time of the year!

Membership: Memberships are now due. Annual membership \$100 (plus taxes), Junior membership \$15 (plus taxes). Please send payment to the office by credit card, cheque or e-transfer.

Calves 0-6 months: can be registered for only \$20. Don't delay sending applications to the office.

New Bylaw amendments, effective January 1st, 2019:

At the 2018 Annual General Meeting the membership passed two bylaw amendments proposed by the board of directors.

c) bulls born on or after January 1, 2019 who are sired by registered CMAA Maine-Anjou sires must be sired verified by a CMAA approved genotype whose offspring could be registered.

d) bulls born on or after January 1, 2019 that are 50% or less that are not sired by a Maine-Anjou sire must be verified by the CMAA registered dam with an approved CMAA genotype whose offspring could be registered.

Walking Sires: All natural sires must have a DNA profile. Be sure to pull hair before turning bulls out! Mail DNA to the office and Heidi will send to the lab with appropriate forms.

Hair samples store indefinitely in paper envelopes, clearly identified, in a dry, dark place such as a filing cabinet. Consider pulling hair on every animal leaving the farm. Consider when sending a sample to the lab to keep half back in case of loss.

The Maine-Anjou registration work has been steady this past year adding several registrations with the amnesty program offered in the fall of 2018.

I would like to thank the membership for their continued support. I hope to see all of you at the Annual General Meeting this summer and keep your paperwork coming.

GARY D. SMITH MEMORIAL SCHOLARSHIP

The Gary D. Smith Memorial Scholarship is awarded to the senior contestant with the highest combined scores of the beef confirmation judging and marketing competitions. The 2018 scholarship was awarded to Matthew Trefiak of Edgerton, AB. Matthew is a grade 12 student and raises Hereford and Angus cattle with his family at MJT Ranch. Matthew had a very successful show season in 2018, including Summer Synergy. Gary's daughter Kelly and granddaughter Aubrey were very pleased to meet and award Matthew with his \$1000 scholarship. The Smith family was very proud to award a scholarship to an individual that truly represents the future of the industry.

2018 AGM REVIEW

The 2018 Canadian AGM kicked off with a mixer evening in Pilot Mound, MB on August 10, 2018. On August 11, our AGM began at 9 am with registration and coffee. The 2018 was called to order at 9:50 am. We were served a delicious lunch then continued on with our meeting in the afternoon.

A farm tour of Myron and Myrna Lees' herd followed with a return to the hall for supper. Sunday, we travelled to Doug and Geri Kerr's where we all had a chance to visit, enjoy delicious food and take in the beautiful views from their farmstead that overlooks the Pelican Lake. Our last stop brought us to Johnson's Black Maines where Patrick toured us through his bred heifer pen then to pastures of cows nearby.

We had a great group of members and directors attend our event and we look forward to heading to Lloydminster for the 2019 AGM.

A big thank-you goes to the Lees, Johnson and Kerr families for taking time to organize and host the AGM weekend.

2019 AGM UPDATE

The Saskatchewan Maine-Anjou Association is happy to be the host committee for the Canadian Maine-Anjou Association's Annual General Meeting for 2019. The AGM will be held August 9, 10 and 11, 2019 in Lloydminster, SK. For more information, contact Myles Hansen or Gary Graham.

CONGRESS REPORT

The committee is busy with plans for the 2020 Congress at Canadian Western Agribition in Regina, Saskatchewan.

We held our futurity classes at various qualifying fall shows in 2018 and are very happy with the number of heifer and bull calves that were exhibited.

There is a lot of excitement building as calves hitting the ground this year and breeding plans made this spring can greatly influence herds leading into Congress 2020.

International interest is very strong, which is very uplifting and those guests who attend will be able to see firsthand the top-quality Canadian Maine-Anjou genetics we are striving to produce and showcase at this celebratory event. Breeders and exhibitors - be excited for the potential of expanding market opportunities and relationships during this congress.

Discussions are ongoing regarding new events to take place at Agribition for Congress 2020. An elite sale, as well as special classes to be held during the Maine-Anjou show are in the works, along with the annual Maine Attraction heifer calf jackpot. An evening banquet and social are also on the agenda. Stay tuned for more details.

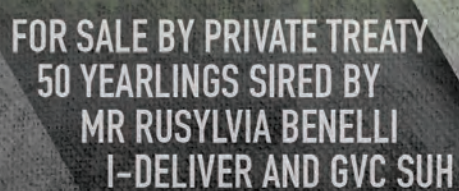

Submitted by
Tracy Wood and Colleen Hansen

ALBERTA 4-H REPORT

Della Wise-Whelan

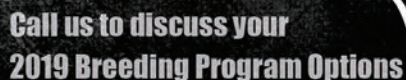

In 2018, 24 Alberta 4-H clubs submitted applications to the Alberta Maine-Anjou Association to recognize the hard work of 67 members showing 91 projects. 28 grand and reserve championships were reported. While applications were down from the 31 clubs counted in 2017, several clubs had seven or more Maine-Anjou projects in their annual shows.

Alberta members: if you have sold steers or heifers to 4-H members or attend a 4-H show where Maines are exhibited, please take the time to let those involved know there is recognition available for the efforts of these juniors. The Maine-Anjou breeders of tomorrow can be developed through this grassroots promotion. Thank you to those breeders who choose to support the association.

CMAA NEWS

Junior Report

Josie Pashulka

Greetings all. Calving is well underway. Here is to a bountiful crop of little ones who will continue to showcase the Maine-Anjou breed in the coming years. Having joined the CMAA to get some Junior promotions happening, I'm happy to announce we had a great 2018.

The Facebook Silent Auction was a solid starting point to gather some much-needed funds for the Junior program. The support from both the contributors and the bidders was appreciated.

Our contributors to the Silent Auction included: Bayshore Angus, Byman Cattle Co., CMAA, Flat Top Cattle Co., Gord Williams, Hansen Livestock, Jenna Lingley, Kattle Kountry Vet, Kyle Dodgson, Manitou Maine-Anjou, NuHaven Cattle Co., Partridge Hill Cattle Co., Rapid Creek Ranch, Rusylvia Cattle Co. and Stenberg's Maine-Anjou. Thank you to all who offered services and donated items.

We thank the following for their successful bids: Colleen Hansen, Connie Baehr, Debbie McMillan, Jess Verstappen, Kelly Smith-Fraser, Kurtis Reid, Kyle Dodgson, Mark Shologan, Ron Gilbert, Sandy Graham, Scott McCormack, Shelly Ann Dodgson, Stephanie Coleman and Stuart Byman. Your support was greatly appreciated.

With 2019 already here, we are preparing to do it again. The Facebook Silent Auction in support of the

Junior Maine-Anjou Incentive Program will open May 15th on the CMAA Facebook page. We are actively looking for items or services to be offered in the online auction. Send a photo of the item or description of service along with a dollar value to myself or Heidi at the CMAA office on or before May 5th, 2019. Thank you in advance for helping the Junior Incentive Program which, in turn, promotes the Maine-Anjou breed.

For Juniors looking to get involved in the breed, CMAA has a junior membership option with one free registration per year. This is a great way to start your herd and allows you to show in the Bred and Owned classes at most Junior Shows. Be sure to check out the High Point Recognition criteria (on page 26) and take your registered Maine heifer to all the junior shows you can fit it to accumulate points.

Wishing everyone a successful season of calving, halter-breaking, 4-H Achievement Days and junior shows.

Josie Pashulka - is a CMAA Director with almost two years on the Board. She lives in northeastern Alberta and owns Rusylvia Cattle Co. with husband, Ken and boys: Tyson, Riley and Taylor Pashulka. The family runs 400 head of cows made up of: 125 Purebred Maine; 100 Purebred Black Angus; 30 Purebred Simmental with the rest commercial black cows and crop 1500 acres. They A.I. about 125 cows annually and implant 30-60 recips. Approximately 40-50 Rusylvia bulls sell each year by private treaty and Pashulkas host an online steer/heifer sale each fall. Josie has had Maines since 1980 when she selected the breed at Ag-EX in Manitoba to start her 4-H herd. She was privileged to be the Maine-Anjou Queen for several summers while she was a teenager.

Double win for Pashulka

Summer Synergy is a junior show dedicated to the development of youth between the ages of 9 and 21. Throughout the first week in July, participants compete with their respective species for points being allotted from three, species-specific activities, a Synergy multi-judging competition and a Synergy marketing component.

For the Maine-Anjou breed alone, over the past five years \$32,500 in scholarships have been handed out.

Taylor will be attending the Sydney Royal Easter Show in Sydney, NSW, Australia in April along with fellow junior, Baxter Blair.

Although Taylor isn't the first of the Pashulka boys to be awarded a trip, he is headed the farthest. Big brother, Riley won a trip to the Fort Worth Stock Show and Rodeo in 2017.

Congratulations to Taylor on being awarded both a scholarship and trip this past fall. The Maine-Anjou breed was well represented in on the Junior show circuit in 2018.

The fall show circuit held special significance for a young Alberta Maine-Anjou breeder. Taylor Pashulka garnered two awards at Farmfair International in Edmonton this past November.

The Carol Eigner Scholarship recognizes a junior with interest in a "niche" breed who is always willing to help and a roll model to many, much like Carol Eigner herself. The announcement was made during the Alberta Supreme Show of Champions on November 10th, 2018.

The good news didn't stop there as Taylor was also announced as a winner of one of four Summer Synergy Setting Sails Trips from the Olds, Alberta show.

CMAA JUNIOR AWARDS

The Canadian Maine-Anjou Association is pleased to announce the 2018 winners in our Junior program.

The CMAA presented a \$500 Scholarship to Bronwynn Frenzel of Magrath, Alberta. Bronwynn is pursuing an Animal Science diploma at Lakeland College in Vermilion and is an active junior in showing her cattle at jackpot and junior shows.

The CMAA presented the top two Junior Show Female Awards at Agribition. Points were tallied from breed, junior, jackpot and purebred shows all year.

Congratulations to Champion High Point Junior Female Miss Rusylvia Elite owned by Riley Pashulka of Derwent, Alberta.

The Reserve High Point Junior Show Female was awarded to Miss Rusylvia Dream owned by Taylor Pashulka of Derwent, Alberta.

Thank you to our juniors for promoting and showing Fullblood, Purebred and Maine-Anjou Influence females across Canada. Check out page 26 for ways to get involved with the 2019 CMAA Junior Incentive program.

CMAA President, Kody Roddick presents Bronwynn Frenzel with the 2018 CMAA Scholarship.

JUNIOR SCHOLARSHIP 2018 WINNING ESSAY

As someone who grew up through the 4-H and junior programs, you always hear the line told by breeders, judges, and spectators, "youth in agriculture are the future of our programs and our industry, there are none quite like them". Because we are the future of the cattle industry and our breed associations, we owe it to ourselves and the industry to be the best we can be. If the breed associations invest in us, it will give us new opportunities to grow and promote the association.

Promoting us does not have to mean handing us everything we think we need, it could be as simple as giving us a piece of advice, writing a recommendation letter, or letting us know about upcoming events that could enhance our skills. Being someone that never came from a background of purebred cattle or shows, all these little things have helped me become more involved in the industry. Involving us within the breed is something that has become more popular, and I think its extremely important for the juniors to be a part of something that their lives are so heavily involved in.

In my opinion I don't think there will ever be one specific thing that's going to promote us juniors. But I do think it's the ongoing added involvement that everyone is promoting. Thirty years ago, the type of junior and youth programs they have going now, never existed and everyone wishes they did. For example, the Angus Association has been pioneers in junior development for many years by putting on influential and informative junior conferences. I think if we stay on the same track that we are on now, of promoting juniors and keeping them involved in what goes on, giving them incentives and amazing opportunities, that will be the best way any association can build and promote youth. That's why our associations are special, they get youth involved in trips, scholarships, shows and prizes. They are promoting the youth and broadening the associations scope of junior involvement.

My suggestion would be, never stop promoting and supporting youth in the associations, to keep the innovative and creative ideas coming forward, always be thinking of the next opportunity that could be arising, or maybe something you've always wished you could have done. Give that opportunity to the younger generation so they can flourish, and gain ideas and knowledge to bring forward.

We can be the best we can be by participating in all the events possible, such as cattle shows, demonstrations, tours, judging, and public speaking. This is what makes us visible advocates in the industry. Likewise, what the breed associations can do for us is to provide more scholarships, trips and prizes creating more incentives for youth. Also, in this age of modern mobile technology, I think it is of utmost importance that we should be continually supported and updated with all the possible advice as youth will play a major role in the further growth of agriculture as they have the natural affinity to information, technology and communication.

Fall Sales Results

RUSYLIVIA CATTLE CO. SALE

Rusylvia Cattle Co. hosted a Open House on October 13, 2018 with about 120 people in attendance. Visitors could view the sale offering, visit and watch a fitting/clipping demonstration plus share the Pashulka family's hospitality. The following evening an online sale with DLMS offered purebred Maine-Anjou, Purebred Angus, Maintainer, Sim-Angus and show steers. The following averages were: Purebred heifers \$4110; commercial heifers; \$3420 and steers \$3000. Cattle sold to BC, Alberta and Saskatchewan.

GILCROFT FARMS SALE

The Gilcroft Farms Fall Sale was held on December 1, 2018 with guest consignors Cornerstone Maine-Anjou, Truray Farms and T&T Maines. The sale was at Hoards Station Sale Barn and Online with LiveAuctions.TV. Three Fullblood heifer calves averaged \$1700.00. Two Fullblood bred yearlings averaged \$2300.00. Five Fullblood cows averaged

\$2095.00. Three Bulls averaged \$1500.00. 12 Purebred cows averaged \$ 1595.00. Three Purebred Bred Yearlings average \$ 2035.00. Six Purebred heifer calves averaged \$1045.00. On 34 head, total average was \$1650.00. Cattle sold to Ontario, Manitoba, Saskatchewan and Arkansas. With online viewers from all across Canada and the United States.

MANITOU MAINE-ANJOU SALE

Manitou's sale was held on December 7, 2018 with DLMS assisting with an online sale in Marsden, SK. High Selling Fullblood heifer calf was \$6000 going to Bruce Baker in Iowa. High selling bred heifer went for \$5200. High selling bull calf went for \$8000 to Sarginsons of Illinois. Jerry Gibson of Texas bought seven head. Sale average was \$3000 on the fullbloods, purebreds and commercial combined. Thank you to all those who supported us.

Box 431 WADENA SK S0A 4J0

Greetings from Down Under Maine-Anjou breeders,

It's been a big year for members of Maine-Anjou Beef Australia, with their stud bulls being sold and used commercially Australia wide from areas such as drought proof King Island, Tasmania in the south of the country to the heart of the harsh outback, Blackall, Queensland.

The members are focused on breeding moderate structured stock, that still retain their weight for age attributes and this is the secret to their sales success. The commercial Maine-Anjou Beef Australia breeder such as Ron Crack of King Island says, "Maine-Anjou cattle yield alot better than straight bred British cattle. At the end of the day yield will beat anything and that's what you get paid for as a farmer."

Upcoming Event:

Maine-Anjou Beef Australia's National Sale is February 23, 2019. It's a great opportunity for members to display their best stock and showcase their stud. This year we have a Maine-Anjou barbeque at 6pm on the Friday night before the Sale for prospective buyers to get a sneak peek of the cattle and enjoy Maine-Anjou meat. We set the bar high at the Sale, with all cattle independently vet inspected to ensure purchasers can buy with confidence. Plus all cattle are tested for Pestivirus and meet a biosecurity standard, with a 12 month guarantee on the structure of all cattle.

About Maine-Anjou Beef Australia:

Maine-Anjou Beef Australia was established in 2008 with the aim to positively promote the mainstream benefits of the Maine-Anjou breed in Australia.

The fast growing membership is a reflection of the benefits of breeding with Maine-Anjou beef cattle. More than an association, Maine-Anjou Beef Australia members are strongly focused on breeding moderate sized, sound structured cattle for today's market, with fast weight gain, easy calving and smooth muscle.

BPF Beast 5132 x BPF lucky Lady 82W

Beast

Beast is a powerful outcross we purchased to add frame and performance to our herd. His pronounced muscle pattern, foot size and bone mass while remaining perfectly sound, and maintaining a soft look is a rare find.

After running on pasture and breeding 29 cows on a drought year, Beast weighed 2180 LBS at Farmfair at 23 months of age.

His look has never left him and he just keeps getting better with age. Calves are due in March, we invite you to stop by for a visit and have a look at his first calf crop.
